

Dear Stanley & Rosalind

We just have a relative from America and she also a pet lover so while during the conversation she was asking about my dog, Bobo (jack russell) and suddenly I remember you pass me a DVD and decided to play it on TV.

And to my surprise that you have both make such a good effort in making into a movie and we all have a real good laugh and my husband and brother –in-law was very pleased that Bobo was very well taken care and she enjoy herself at your play centre. I will not hesitate to recommend my friends to put their pet with your centre.

My husband was very happy watching our dog in the movie that you made. Thanks very much and job well done.

Samantha
